Product Description

Product Description:

The LA1000W model is designed to withstand different weather conditions, with a working humidity range of 10-90%. This makes it perfect for outdoor use, as it can withstand high humidity and harsh weather conditions. You don't have to worry about your power station getting damaged due to weather conditions.

One of the key features of the LA1000W Portable Power Station is its Type-C port. With this port, you can charge your devices faster than ever before. The Type-C port is compatible with a wide range of devices, including smartphones, tablets, laptops, and more. You can now enjoy a faster charging experience, regardless of the device you're using.

The Portable Power Station LA1000W also comes with a built-in flashlight, making it perfect for use at night. Whether you're setting up camp or trying to find your way in the dark, this flashlight will come in handy. It ensures that you're never left in the dark, no matter where you are.

In addition to the Type-C port and flashlight, the LA1000W Portable Power Station also features an RV port and cigar lighter. This means that you can charge your RV or car battery on the go, ensuring that you always have power when you need it. Whether you're on a road trip or simply commuting to work, this feature will come in handy.

The Portable Power Station LA1000W also comes with a DC output that supports USB-C. This means that you can charge your devices using the USB-C port, ensuring that you have a versatile charging solution. You can now charge your devices using the same cable, regardless of the device you're using.

In conclusion, the Portable Power Station LA1000W is the perfect solution for your outdoor energy needs. With its fast charging Lifepo4 battery, Type-C port, flashlight, RV port, cigar lighter, and USB-C support, you can now enjoy a versatile and reliable power source whenever and wherever you need it.

Features:

Product Name: Portable Power Stations

Battery Type: Lithium-ion

Product Size: 9.84*5.51*6.69in/ 250*140*170mm

Inverter Type: Pure Sine Wave

Battery: LiFePO4 Lithium Ion

AC Adaptor: Included

Car: Charging Cable Included

Solar Panel: Compatible

Outdoor Cabinet Energy Storage: Yes

Outdoor Camping Portable Energy Battery: Yes

Technical Parameters:

Inverter Type	Pure Sine Wave
Battery Type	Lithium-ion (LiFePO4)
DC output	USB-C
Power Source	AC Adaptor, Solar Panel, Other
Special Features	Type C, Flashlight, RV Port, Cigar Lighter
Discharge temperature	-4-113°F/-20-45°C
Product Size	9.84*5.51*6.69in/ 250*140*170mm
Output Wave	1000W Sine Wave

Introducing our Outdoor Portable Emergency Power Station, featuring a fast charging Lifepo4 battery. This Portable Power Station is perfect for powering your devices on the go, whether it's camping, hiking, or in emergency situations. With a Pure Sine Wave inverter and 1000W output, you can be sure that your devices will be powered safely and efficiently. The unit also features a USB-C output, Type C, Flashlight, RV Port, and Cigar Lighter, making it a versatile addition to your outdoor gear. The unit is designed to operate in temperatures ranging from -4-113°F/-20-45°C and measures 9.84*5.51*6.69in/ 250*140*170mm.

Applications:

The Portable Power Station is perfect for outdoor adventures. It can be charged using a Solar Power Station, making it an ideal choice for those who want to go off the grid. With its rugged design and durable construction, it can withstand harsh weather conditions and extreme temperatures. You can take it with you on your next camping trip or use it to power your RV.

The Portable Power Station is also great for emergency situations. When the power goes out, you can rely on this power source to keep your essential devices running. It can be charged using an AC Adaptor or other power sources, and it has a long battery life that can last for hours. You can use it to charge your phone, laptop, or other devices, ensuring that you stay connected during an emergency.

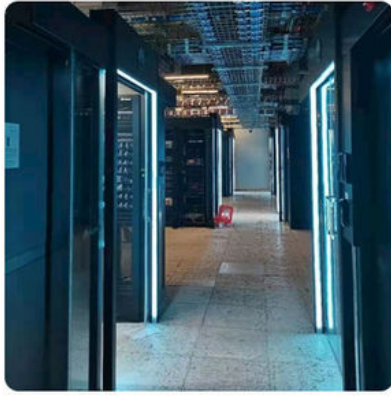

The enook Portable Power Station is certified to meet CE, ROHS, FCC, UN38.3, and MSDS standards, ensuring that it meets the highest quality and safety standards. It has a minimum order quantity of 4 units, making it a great choice for individuals or groups who need a reliable power source. It has a voltage of AC110~220V and a discharge temperature of -4~113°F/-20~45°C, making it suitable for use in a variety of environments.
